

# 2006 NEW PRODUCTS

## 2005 MUSTANG REAR LOWER ADJUSTABLE CONTROL ARMS

Designed specifically for the 05 Mustang, Lakewood Industries offers a New set of Adjustable Lower Control Arms. Engineered to prevent wheel-hop and help keep the tires planted firmly to the ground, while being fully adjustable "on-the-car".

Part #20105

## EZ-ADJUSTABLE BELLHOUSING DOWEL PINS

New Lakewood adjustable bellhousing dowel pins are unique because they slip easily into the engine block and are designed to be turned with a wrench rather than a screwdriver. Once they are pointed in the correct direction, a set screw (which runs down the center) is then tightened, which prevents the dowel pin from turning! No need to pound the pins in and out. No drilling or tapping!

## H.D. UPPER CONTROL ARMS

Lakewood Industries now has the Upper control arms available to match the Lower control arms. These are engineered from heavy duty steel boxed tubing, Delrin bushings, steel sleeves and come with easy-to-reach grease fittings.

1979-96 Ford Mustang	Lower #21314	#21101
1978-87 MonteCarlo, Regal, Cutlass, Grand Prix, Malibu	Lower #21313	#21102
1963-72 Chevelle, GTO, 442, G.S, Cutlass, Tempest, Skylark	Lower #21312	#21103

## 2005 MUSTANG ADJUSTABLE PANHARD ROD

Designed specifically for the 05 Mustang, Lakewood Industries offers a New Panhard Rod. Engineered to keep rear-end centered and aligned under severe cornering conditions. Manufactured from high strength steel tubing to prevent flex and bending.

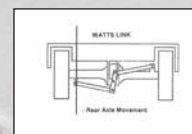

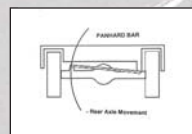

Part #20405

## 2005 MUSTANG ADJUSTABLE WATTS LINK KIT

The Watts Link kit is the ultimate upgrade for 2005 Mustang owners who want razor sharp handling and improved lap times. This watts link kit bolts in place of the factory panhard bar and brace making installation quick, simple and 100% bolt in. It has been engineered to keep the rear-end perfectly centered and aligned under cornering, acceleration and braking. The adjustable design of this unit allows you to change the roll center of the rear end resulting in better traction.

Part #20505

## ADJUSTABLE UPPER CONTROL ARMS (IN STOCK)

Lakewood Industries now has the Upper control arms available to match the Lower control arms made previous. They are engineered from heavy duty steel hex bar stock using Delrin bushings, steel sleeves and come with easy-to-reach grease fittings. These upper arms are black powder coated for corrosion-resistance and durability.

1978-87 G-Bodies, MonteCarlo, Regal, Cutlass, Grand Prix, Malibu	Lower #21313	#20149
1963-72 A-Bodies, Chevelle, GTO, 442, G.S, Cutlass, Tempest, Skylark	Lower #21312	#20144

# 2006 NEW PRODUCTS

## 2005 FORD MUSTANG ALUMINUM FLYWHEEL

An Aluminum flywheel for the 2005 Ford Mustang is now available from Hays. This flywheel is manufactured from 7075 T6 Billet Aluminum that will not break up under the stress of High RPMs and Severe Heat Punishment of racing. It also features a steel friction-surface, Neutral-Balance, certified to meet S.F.I. and weighs only 15 lbs. This flywheel is made to fit Ford factory diaphragm style clutches both 10-1/2" and 11". Part #22-830

## LS-1 STREET / STRIP PERFORMANCE CLUTCH KIT!

Our New Hays LS-1 Clutch kit part #85-105 is engineered to handle the increased horsepower and torque of modified engines. These performance clutch kits are the answer to clutch problems with today's muscle cars that are equipped with nitrous systems or turbos. Each kit contains a high-performance diaphragm pressure plate that retains the factory pedal pressure and will not blow out your hydraulic throw-out-bearing.
