

ACCEL[®]

Time-Tested, Race-Proven Performance!

300+ 8.8mm
Race Wire

Extreme 9000

Super Stock
Spiral

300+ 5mm
Race Wire

300+ 8.8 Race Wire

- Delivers 180% more amperage than the competition for maximum power
- Advanced technology Ferrite Core maximizes RFI/EMI suppression
- Heaviest gauge spiral-wound alloy of any spark plug wire

Extreme 9000 Series Heat Reflective Wire

- No more burned boots! Space-age patented heat reflective coating rated to 1200°F reflects heat away from the plug boot
- Spiral wound core delivers more energy to the spark plug

5000 Series SuperStock Spiral Wires

- 500 ohms/foot of resistance - provides improved efficiency, quicker throttle response and reduced emissions
- Silicone jacket resists moisture, chemicals and severe temperatures for longer life and great looks

*Introducing the latest
addition to our line-up...*

300+ 5mm Race Wire

- Same maximum energy core found in 8mm, 8.8mm, and 10.8 wire
- Reduces weight, which is critical on a race car
- Easy to hide on a street rod with a custom look engine compartment
