

# REGULATORS & STATORS

## ATV/UTV

#201407

#152447

ACCEL regulator/rectifiers are designed to be direct replacements to original equipment using stock mounting locations and OEM style connectors. These parts are designed to handle higher power loads than their OEM counterparts and use heavy duty components ensure long life.

With increasing demand for high-output lighting on ATV's and side-by-side UTV's, high-output stators become a necessity. Our stators are built with heavy duty components to handle off road abuse. Many OEM electrical systems only provide power to run the ignition system, but we have a range of direct replacement stators that also offer lighting output.
